### Large Powder Brush

**Product Features:** A large powder brush usually has a big and fluffy brush head with soft and dense bristles. It can pick up a sufficient amount of loose powder at one time, allowing for quick full-face setting. It evenly covers the face with loose powder, effectively controls oil, prolongs the durability of the base makeup, and gives the base makeup a natural and translucent texture. It is especially suitable for creating a large-scale and quick setting effect and is a powerful tool for full-face setting.

Handle:	Wood Handle
Ferrule:	Aluminum tube
Hair:	Synthetic bristles
Total:	200mm
Hair Length:	45mm

### Small Powder Brush

**Product Features:** Featuring a small, delicate brush head with soft, good powder-grabbing bristles, it's ideal for setting detailed areas like around eyes and nose. It controls powder amount precisely without caking, refining makeup details, and is a great helper for local setting.

Handle:	Wood Handle
Ferrule:	Aluminum tube
Hair:	Synthetic bristles
Total:	190mm
Hair Length:	35mm

### Blush Brush

**Product Features:** A blush brush is for loose powder blush. Its head is angled (fits cheekbones) or round (for large areas), with soft bristles that hold powder moderately. Dip lightly, shake excess, sweep on cheeks. It adjusts blush intensity for long-lasting, translucent makeup—a must-have.

Handle:	Wood Handle
Ferrule:	Aluminum tube
Hair:	Synthetic bristles
Total:	190mm
Hair Length:	35mm

### Foundation brush

**Product Features:** Designed for base makeup, it has a 45° angled head (mostly synthetic, cruelty-free). Its wide side applies even base quickly, narrow side/tip touches up details (nose sides, eye corners). It also aids concealing/contouring, fits liquid/cream foundations, and suits daily/pro makeup.

Handle:	Wood Handle
Ferrule:	Aluminum tube
Hair:	Synthetic bristles
Total:	174mm
Hair Length:	24mm

### Blush Brush

**Product Features:** A blush brush is for loose powder blush. Its head is angled (fits cheekbones) or round (for large areas), with soft bristles that hold powder moderately. Dip lightly, shake excess, sweep on cheeks. It adjusts blush intensity for long-lasting, translucent makeup—a must-have.

Handle:	Wood Handle
Ferrule:	Aluminum tube
Hair:	Synthetic bristles
Total:	181mm
Hair Length:	26mm

### Medium-Sized Contour Brush

**Product Features:** This brush excels at facial shaping, with angled bristles for precise shadowing (jawline, cheekbones). Fluffy, elastic bristles blend powder/cream evenly. Easy for beginners—great for daily or party looks, a practical makeup bag essential.

Handle:	Wood Handle
Ferrule:	Aluminum tube
Hair:	Synthetic bristles
Total:	167.5mm
Hair Length:	15mm

### Highlight Brush

**Product Features:** Made for facial highlighting. Soft brush fits nose bridge/cheekbones, blends highlighter evenly. Easy for beginners, suits daily/party looks—makeup bag essential.

Handle:	Wood Handle
Ferrule:	Aluminum tube
Hair:	Synthetic bristles
Total:	170mm
Hair Length:	21mm

### large eyeshadow blender

**Product Features:** For eyeshadow blending. Large, soft brush blends colors evenly, no muddiness. Easy for beginners—must-have for daily eye makeup.

Handle:	Wood Handle
Ferrule:	Aluminum tube
Hair:	Synthetic bristles
Total:	159mm
Hair Length:	20mm

### small eyeshadow blender

**Product Features:** For detailed eyeshadow blending. Small, flexible brush targets eye creases, outer corners. Soft bristles ensure natural color transition. Easy for beginners—essential for daily precise eye looks.

Handle:	Wood Handle
Ferrule:	Aluminum tube
Hair:	Synthetic bristles
Total:	166mm
Hair Length:	16mm

### lip + line

**Product Features:** Often refers to a lip liner brush. With a thin, precise tip, it defines lip contours clearly and prevents lipstick bleeding. Works with lip liner pencils/creams, keeps lip makeup sharp and long-lasting. Easy for beginners, great for daily touch-ups or polished lip looks.

Handle:	Wood Handle
Ferrule:	Aluminum tube
Hair:	Synthetic bristles
Total:	161mm
Hair Length:	11mm

### Eyeshadow Blender Brush

**Product Features:** Designed for eyeshadow blending, it has soft, fluffy bristles that create natural color transitions and prevent muddy patches. Fits daily, date looks—easy for beginners to use. Helps make polished eye makeup, a common practical tool in makeup bags.

Handle:	Wood Handle
Ferrule:	Aluminum tube
Hair:	Synthetic bristles
Total:	181mm
Hair Length:	26mm

### Precise Eyeshadow Packer

**Product Features:** Focused on precise eyeshadow application. Its brush head accurately targets eyelid areas, adheres to eyeshadow powder (pearlescent/matte) closely, reduces fallout, and ensures vivid color. Easy for beginners, fits base or local coloring—an essential for eye makeup.

Handle:	Wood Handle
Ferrule:	Aluminum tube
Hair:	Synthetic bristles
Total:	155mm
Hair Length:	10mm

### Precise Eyeshadow Packer

**Product Features:** Designed for precise eyeshadow application. Its brush head accurately targets specific eyelid areas (e.g., upper lid, outer corner), adheres closely to matte/pearlescent eyeshadow powder, reducing fallout significantly for vivid color. Easy for beginners, it works for base or local deepening in daily eye makeup, helping create polished looks—an often-used practical tool.
